PROFESSIONAL EXPERIENCE

Sovrano AI (S26 Founding Cohort) | AI Business-Evaluation Analyst Intern Barcelona, Jun – Aug 2026

- Assessed the output quality of AI models by evaluating and ranking AI-generated business-strategy recommendations in the Marketing domain against a weighted five-dimension rubric (EuroExec European Business Benchmark); promoted from evaluator to lead reviewer.
- Authored self-contained, expert-level business cases with detailed scoring checklists, designing an anti-leakage methodology that consistently cleared the benchmark's difficulty gate.
- Led scoring calibration and quality assurance, translating review findings into structured feedback for item authors; work adopted as my Esade In-Company Project on LLM business evaluation.

Mededalia (AI healthcare startup) | Student Consultant (IPA) Barcelona, Oct 2025 – May 2026

- Assessed market maturity and GenAI adoption across European healthcare systems to prioritise high-potential entry markets for an early-stage secure-GenAI startup.
- Designed a two-tier SaaS pricing and packaging strategy (Basic €450/mo, Premium €550/mo) benchmarked against the market leader, defining the feature split per tier, setup fees and scalability logic.
- Mapped target client segments and built the outreach plan to accelerate product-market fit.

Be. Shaping the Future S.p.A. | In-Company Consulting Project Milan, Mar – Apr 2025

- Designed and presented to senior managers an AI-powered ESG risk-assessment tool for steel-sector firms, combining NLP sentiment analysis (VADER, BERT) and ML models (XGBoost, ARIMA) into dynamic social risk ratings (1-5).
- Built the weighted scoring methodology, mapped ESG, news and social data sources, and aligned outputs with CSRD, SFDR and EU Taxonomy requirements.

HONORS & AWARDS

Winner, Danone Business Case Competition | Esade Barcelona

- Ranked first among the three MSc International Management classes (180 students) with a strategic business case for a Danone probiotic-drink brand.
